HMS SUPERB

1. You asked for a note on plans for misinformation on HMS SUPERB. I apologise for the delay: secure lines caused difficulties.
2. CINCPACFLT have confirmed that they proposed to your office a scheme whereby HMS SUPERB should do nothing to shake the Argentinian belief that she was in the South Atlantic.
3. HMS SUPERB is currently on a surveillance task in home waters. Her Commanding Officer has been secretly instructed to remain covert at least until the first SSN's arrival in the Falklands area.
